British Indians Living in Dubai · Established 2019

CORE IDENTITY

The Logo

Six lockups cover every ground. The primary sits on dark, the reversed on light, and the monochrome pair exists for single-colour printing. The motif lockups are the full mark: the mandala frames the wordmark rather than sitting behind it.

PRIMARY
gold crown, ivory wordmark - dark grounds

REVERSED
gold crown, charcoal wordmark - light grounds

ALL GOLD
single colour, on onyx

ALL ONYX
single colour, monochrome print

MOTIF (DARK)
the contained lockup, on onyx

MOTIF (LIGHT)
the contained lockup, on ivory

CLEAR SPACE

Keep clear space around the logo equal to the height of the crown on every side. Nothing - type, rules, photography, page edges - enters that margin.

MINIMUM SIZE

120px wide on screen, 25mm in print. Below that the wordmark closes up: use the crown mark or the B monogram instead.

THE TWO ELEMENTS

The Crown and the Mandala

Both come from the original 2019 artwork. The crown is a single filled path - tapered spikes with concave flanks, ball finials and a base that bows gently upward. The mandala is twelve-fold: an outer ring of loops, a scalloped band, petals carrying graduated dots, and a starburst at the centre.

THE CROWN
the mark at scale

THE MANDALA
twelve-fold, Premium Gold

REGENERATION

Every master in this pack is produced by branding/_rebuild.py and _rebuild2.py from one crown definition and one mandala file. Re-running them reproduces the pack byte for byte, so the identity cannot drift between the guidelines, the pack and the website.

PROVENANCE

Both were recovered from the original logo file. The crown is real vector, so the path in use is the designer's own. The mandala was never vector - it exists as a 1442 x 1436 gold-foil raster - so it is kept twice: untouched at bild-mandala-original@1442.png, and flattened to Premium Gold at bild-mandala-gold@600.png, which is what the lockups carry.

USING THEM APART

The crown may stand alone as a mark. The mandala may be used as a watermark or a background texture, but never at full strength behind type - it is set at 26% in the lockups for exactly that reason. Neither element is ever redrawn by hand.

SMALL SIZES

Mark, Monogram and Icons

For tight spaces, avatars, app icons and watermarks - anywhere the full lockup would fall below its minimum size.

CROWN MARK
on onyx

MONOGRAM
the app icon tile

PROFILE AVATAR
Instagram, Facebook, LinkedIn, WhatsApp

LINK PREVIEW
Open Graph, 1200 x 630

FAVICON AND APP ICONS

favicon.ico carries 16, 32 and 48. Larger PNGs cover Apple touch and Android.

48px

32px

16px

SOCIAL SIZES

- Profile avatar 1080 x 1080
- Open Graph 1200 x 630
- Facebook cover 1640 x 624
- LinkedIn banner 1584 x 396
- X header 1500 x 500

IDENTITY

Colour Palette

Gold leads; onyx grounds; ivory and stone provide calm space. Premium Gold changed in September 2026 from #C8A64B to #C8861A, resolving a long-standing split between the identity and the website in favour of the website's brighter gold. Anything still showing the old value is out of date.

Onyx Black

HEX #0E0E0E
RGB 14 14 14
CMYK 0 0 0 95
Primary dark, backgrounds

Premium Gold

HEX #C8861A
RGB 200 134 26

RGB 244 241 236
CMYK 0 13 4
Light backgrounds, reversed text

Stone Grey

HEX #D9D7D2
RGB 217 215 210
CMYK 0 13 15
Supporting neutral

THE WEBSITE PALETTE

The site extends the identity with working tints. These are defined once in bild-website/tailwind.config.ts and should not be re-invented per page.

gold-400
#E0A135 · accent on dark

gold-500
#C8861A · primary button

gold-600
#A86A10 · accent text on light

gold-700
#7D4E0A · small accent text

cream
#FDF8F0 · default light ground

stone-100
#E9E4DB · third ground

charcoal-800
#1A1A1A · dark section

ruby-500
#9B2335 · used sparingly

Typography

Playfair Display

PRIMARY · DISPLAY

Headlines and feature titles. Set bold, with generous tracking on short lines. This document is set in it.

Georgia

THE LOGO WORDMARK

B.I.L.D is set in Georgia, not Playfair. It is a system face, so the logo files render correctly anywhere without fetching a webfont - which is why earlier exports that relied on Playfair silently fell back to a default serif.

Montserrat

SECONDARY · BODY

Body copy, buttons, labels and supporting text across the identity. Every word of body copy in this document is set in it.

Inter

THE WEBSITE BODY FACE

The website uses Inter for body copy rather than Montserrat. This is a known and deliberate difference: changing it alters the feel of every page, and is a separate decision. The display face matches.

Using the Identity

DO

- Use the primary lockup on dark grounds and the reversed on light.
- Keep clear space equal to the crown height, and respect the minimum sizes.
- Use Premium Gold #C8861A as the lead accent.
- Reach for the crown mark or the B monogram when space is tight.
- Take files from this pack rather than re-exporting from a screenshot.
- Use a grounded motif file on flat colour; the transparent one only over photography.

WHAT IS IN THE PACK

01-logos/svg	Vector masters - seven lockups
01-logos/png	Hi-res PNG at 1000 and 2000, plus solid-ground JPGs
02-mark-monogram	Crown mark and B monogram, vector and PNG
03-favicon	favicon.ico plus every PNG size and the web manifest
04-social	Avatar, Open Graph, Facebook, LinkedIn and X
05-guidelines	This document
README.md	The current reference, with the full change history

DO NOT

- Do not recolour the logo outside the palette.
- Do not use the retired gold #C8A64B anywhere.
- Do not stretch, rotate, outline or add shadows.
- Do not redraw the crown or the mandala by hand.
- Do not place the dark logo on a busy or low-contrast background.
- Do not set the mandala at full strength behind type.

THIS REVISION

Revised 22 September 2026. Premium Gold corrected to #C8861A; the original crown adopted across the whole pack, replacing a three-spike version that never matched the 2019 artwork; the mandala restored from the original file; the motif lockups rebuilt square and contained. branding/README.md carries the full history, and is the reference if this document and the pack ever disagree.
